The NCSM Leadership Seminar is held on Wednesday prior to the NCTM Regional Conferences from 8:00 AM – 4:00 PM

October 21, 2015

Atlantic City, NJ

~~**November 11, 2015**~~

~~**Minneapolis, MN**~~ **CANCELLED**

November 18, 2015

Nashville, TN

For Mathematics Teachers and Leaders!

NCSM's publication *It's TIME* states "Supportive conditions undergird the specific actions teachers and leaders must take to facilitate success for every student." (p.12) One of the supportive conditions is to address beliefs and mindsets that guide action.

Learn, explore and discuss teacher and student mindsets related to learning mathematics. Think about and discuss the following questions: Do we address the teaching and learning of mathematics with a fixed mindset or with a growth mindset? How does this impact our actions as leaders of mathematics?

REGISTER ONLINE OR CALL TODAY!

All seminar materials, breakfast, and lunch are included with registration.
