

This opportunity is for students to be part of the National Council of Supervisors of Mathematics (NCSM). Your NCSM student membership provides you with resources from leaders in mathematics education. Stay up-to-date on research, development, and tested effective practices as well as the ongoing effort to improve the teaching and learning of mathematics.

About NCSM

When you become an NCSM student member, you join a network of leaders in mathematics education from around the United States, Canada, and abroad, which works to ensure every student in every classroom has access to effective mathematics teachers, relevant curricula, culturally responsive pedagogy, and current technology.

Why should you join NCSM?

With a student membership, you will receive all of NCSM's current print materials including the Journal of Mathematics Leadership, NCSM Position Papers, and the NCSM Newsletters during your time of membership.

NCSM also provides:

- Access to the Members Only website
- A connection to a collegial network of active, passionate, committed, influential educators
- Opportunities to participate in NCSM professional development activities.
- Assistance from your Regional Director.
- Notices of the Annual Conferences

The requirements for student membership are:

- This is your first membership in NCSM (student members are eligible for one renewal at the student member rate for a maximum of two years)
- You are currently enrolled in a graduate program to become a mathematics leader (proof of enrollment must be provided)

The fee for student membership is **\$55 per year** for a maximum of two years. After you graduate or have held your student membership for two years, you will need to renew at the full member rate.
