

Figure 4.17. Questions to Monitor Team Intensification Plans

1. How did your common assessment data drive your team intensification plans for students?

2. Which intensification strategies did the team select for which students?

3. What student performance data did the team select to monitor the intensification strategy(-ies)?

4. How will your team know whether or not student learning improved at all levels as a result of your intensification plan?

5. What additional resources and tools do teachers need to better implement the intensification plan?
